Out-of-plan ambulance services are those received other than in an actual Emergency (as defined elsewhere in this Certificate of Coverage) and the provider of the service does not participate.

If you use an Out-of-Network retail pharmacy, you may have to pay the full cost of the drug up-front and your reimbursement from Piedmont depends on the following circumstances; In-Network benefits are provided at point of sale for prescriptions filled at a pharmacy that is not an In-Network Provider if that pharmacy or its intermediary agrees in writing to accept the same reimbursement terms as a pharmacy that is an In-Network Provider. Otherwise, prescriptions filled at a pharmacy that is an Out-of-Network Provider will be reimbursed to you up to the amount that would have been paid to an In-Network Provider pharmacy (less your applicable Copayment, Coinsurance, and Out-of-Network Deductible)

The cost-sharing payment for a covered prescription insulin drug is limited to a \$50 max per 30-day supply, and any deductible is waived.

NOTE: All benefits described herein are subject to other benefit limits as described elsewhere in this Certificate of Coverage. This Schedule of Benefits is part of and should be read together with your Certificate of Coverage.

¹ AC is the allowable charge.

² PPACA is the Patient Protection and Affordable Care Act.
